

Classes PMČR2016

(for the opening of class must be properly registered 10 competitors at least)

Club Class with Handicap (CLUB)

Only gliders meeting the terms of Section 6.5.8. of the FAI Sporting Code, Part 3 (hereinafter referred to only as "SC3") are allowed to participate in the competitions of the CLUB class.

All gliders results will be evaluated based on Handicap system using indexes rating CZIL (without water ballast in accordance with CZIL).

Gliders maximum value index is 106,4.

Water ballast is not allowed.

Competition tracks will be announced for gliders with index of 100.2.

Gliders with index lower than 94 are allowed to participate in the CLUB class and their index will be set-up as 94.

Combi Class 15m with Handicap (COMBI_15)

All gliders with a span of 15 m are allowed to participate in the competitions of the COMBI_15 class.

All gliders results will be evaluated based on Handicap system using indexes rating CZIL (with water ballast in accordance with CZIL). Water ballast is allowed.

Competition tracks will be announced for gliders with index of 110.

The class can be complemented by gliders from the COMBI_DUO class with coefficient of up to 113 (with water ballast) in case the COMBI_DUO class will not be opened due to insufficient number of two-seat gliders competitors (limit of maximum span of 15m for two-seat gliders is not applied here).

Combi Open Class with Handicap (COMBI_Open)

All gliders with a span of more than 15 m are allowed to participate in the competitions of the COMBI_OPEN class.

All gliders results will be evaluated based on Handicap system using indexes rating CZIL (with water ballast in accordance with CZIL). Water ballast is allowed.

Competition tracks will be announced for gliders with index of 120.

Gliders in COMBI_DUO class with index higher than 113 (with water ballast) according to CZIL) can participate in COMBI_OPEN class only in case the COMBI_DUO class will not be opened due to insufficient number of two-seat gliders competitors.

Combi Duo Class with Handicap (COMBI_Duo)

All two-seat gliders are allowed to participate in the competitions of the COMBI DUO class.

All gliders results will be evaluated based on Handicap system using indexes rating CZIL (with water ballast in accordance with CZIL). Water ballast is allowed.

Competition tracks will be announced for gliders with index of 112.

Gliders with index lower than 95 are allowed to participate in the COMBI_DUO class and their index will be set-up as 95.

Combi Class with Handicap (COMBI); if opened as the only common class aside CLUB class

All gliders are allowed to participate in this class only if they cannot create a specific class aside above determined classes (par. 1.8.2., 1.8.3., 1.8.4.) due to insufficient total number of such competitors, with the exception of CLUB class.

All gliders results will be evaluated based on Handicap system using indexes rating CZIL (with water ballast in accordance with CZIL). Water ballast is allowed.

Competition tracks will be announced for gliders with index of 110.

Gliders with index lower than 95 are allowed to participate in the COMBI class and their index will be set-up as 95.
